Hubert Humphrey Due In San Diego Monday

Vice President Hubert H. Humphrey will arrive in San Diego Monday, May 1, for a series of discussions with private, public and military leaders during a two day trip, according to Congressman Lionel Van Deerlin, D-37th District.

According to Van Deerlin, the Vice President is to arrive in San Diego at approximately 11 p.m., May 1. Humphrey's tentative Tuesday schedule calls for a Democratic Party Breakfast, in honor of the Vice President, at 8 a.m. at the Hotel Del Coronado; a speech before a working session of Southern California mayors who are dealing with urban affairs; an address at the San Diego Kiwanis Club's "Pillar of Freedom" luncheon at the city's Concourse Building; and participation in a military ceremony honoring the Coral Sea Air Group at Miramar Naval Air Station, just north of the city.

The Vice President will then depart for Washington to attend a Cabinet meeting.

Senate Committee Approves $6,000 Minimum For Teachers

Policy approval of an increase in the state minimum teacher salary from $5,000 to $6,000 has been given by the Senate Education Committee on a 7-3 vote.

Senate Bill 102, introduced by Sen. Richard Dolwig, was referred to the Senate Finance Committee.

Sen. Dolwig, informed the committee that the new minimum would assure an unmarried beginning teacher of a take-home pay of $380 per month.

He pointed out that existing minimums in districts are such that only about 8,200 teachers are getting less than $6,000 per year.

"So you can see,' he added "that the impact on both teachers and districts will not be too great."

However, Dr. Willis Black, personnel director at Sacramento State College, declared the recruitment value of a $6,000 minimum is crucial. He said a student with four years completed and a bachelor's degree can go to work for the state at minimum salaries ranging from $6,000 to $8,400, while a teacher, who must complete a fifth year of education to obtain a credential, is guaranteed only $5,000 per year at present.

Sen. Dolwig noted that a teacher survey taken last year showed that to the overwhelming majority, the beginning salary is more important than the top of the schedule.

Organizations supporting the bill were the California Teachers Association, the Junior College Faculty Association and the California Federation of Teachers.

SETTING UP THE HANDS of time is Miss Ginger Crocker, Miss Spring Valley 1966. Ginger is adjusting the clock at Household Finance in the Spring Valley Shopping Center, to mark the beginning of Daylight Savings Times. DST begins 1 a.m. Sunday morning, April 30.

Cafe Rey Morro Goes to H. Goldy

Henry Goldy, a former Lemon Grove restaurateur, will operate San Diego's celebrated Cafe del Rey Morro in the House of Hospitality in Balboa Park when a quarter of a million dollar revitalization project is completed in June.

The revitalization is a combined project of the Junior League, the S.D. Chapter of American Institute of Interior Decorators, and Goldy, who also operates Aladdin Catering Co.

Goldy operated Michael's in Lemon Grove for nearly 10 years. He suffered a heart attack and closed Michael's. After a year of recuperation, he became associated with the Bronze Room in nearby La Mesa, formed the catering firm and in a series of expansions, operates the largest catering on the west coast and has tripled the size of the buildings of the Bronze Room.

The $215,000 program is only the initial step in modernizing the House of Hospitality facility.

Four firms of interior decorators have been commissioned for the job. Each will decorate one segment of the cafe. The restaurants are the Gold Room, Ballroom, Cafe del Rey Morro and Cafe del Rey Morro terrace, plus ten banquet rooms elsewhere in the complex.

The cafes, together with the banquet rooms will seat approximately 5,000 people.

Goldy said that he expects to serve that number of people each day because the various dining rooms have already been booked for most of the rest of the year.

"By the time we open in June we expect to be booked solid through the New Year holidays," Goldy said.

The restaurants will be open daily to the public, he said.

The DIMMER VIEW

by Max Goodwin

Radio, TV; Right and Left

There has been a dramatic growth in radio and television programs espousing the cause of the extreme right.

Programs dealing with the radical right ideology are heard over more than 10,000 tv and radio programs each week.

A flip of the coin is about the only way to decide which can be the most perverted—the right or the left. Regardless, there are no offsetting programs that are as far left as the right are far right.

The reason for that, and a revelation of who is who in the radical right world, is the subject of a studious article in the April 15 issue of TV Guide.

Written by Neil Hickey, the article homes in on the programs that "dispense a brand of vitriol which is neither rational political dissent nor the constructive goading of responsible reformers."

The radical right has a great advantage over the left, the article shows. An avowed communist has no access to tax-free foundation money nor to the contributions required for the purchase of air time. Nor can Communists easily invoke religion nor patriotism to cloak his activities.

The programs are easy to identify. They would "abolish the U.N.; emasculate American labor unions; impeach Chief Justice Earl Warren; abrogate nuclear test-ban treaties; abolish all foreign aid and domestic social-welfare programs, repeal the income tax law; invade Cuba", and other emotion-stirring goodies.

Some programs with extreme view points are:

Christian Crusade—operated by the Rev. Dr. Billy James Hargis of Tulsa, a "fiery evangalist of both religious and political fundamentalism" whose listeners contribute about $1,000,000 a year.

The Dan Smoot Report—a former FBI man, Smoot became a reporter for Texas oilman H. L. Hunt's rightist Facts Forum programs. Facts Forum (now defunct) was on 80 tv and 350 radio stations. Smoot now controls his own operations on 25 tv and 64 radio stations.

Twentieth Century Reformation Hour—brain child of the Rev. Carl McIntire who was expelled from the Presbyterian church in 1936 for causing "suspicion and ill will." Five times a week he is heard on 635 radio stations.

The Manion Forum—former Notre Dame law school dean Clarence Manion is on 12 tv and 200 radio stations. He was briefly a minor official of the Eisenhower administration and is a member of the National Council of the John Birch Society. Manion opposes as "the murderously oppressive Marxist Federal Income Tax".

Smoot denounced integration as "an American tragedy" created by Communist infiltration of the South".

The Dallas News called these people "patrioteers for profit," and the Rev. Dr. Everett C. Parker, spokesman for the United Church of Christ, says that many of the radicals are in no crusade for anything except their own self-support. "They try to get a local organization to put up money for air time, then use part of that time to solicit contributions—which they keep."

Concludes Hickey, "Broadcast extremists customarily cry 'censorship' at the moment their enemies rise from the foxholes and commence to give battle. But what is at stake is not an infringement of free speech or the right to express unpopular opinions, but the fair use of a natural resource—the broadcast spectrum—and the public's right to full, open and balanced discussion of the day's most pertinent issues."

Mrs. V. Van Zele

Mrs. Van Zele Elected African Violet Official

Mrs. V. Van Zele, of 8302 Golden ave., Lemon Grove., was recently installed as second vice president of the African Violet Society of America.

The installation was April 10 in Boston. The Society has more than 12,000 members scattered throughout the world. At her Golden ave. home, which is next door to the home of her son and daughter-in-law, she has filled two greenhouses with selected plants.

One greenhouse is being used experimentally to determine the effects of CO2 gas on African Violets. The gas has been used extensively by Orchid, Carnation, and Chrysanthemum growers in San Diego County, but never before has it been applied to African Violets until Mrs. Van Zele's attempts. She reports the results "encouraging."

Her daughter in law, Mrs. Richard Van Zele, of 8306 Golden ave., is also a Violet enthusiast. She received an award at the Boston convention for outstanding work as the Association's official photographer. Mrs. Richard Van Zele's pictures appear in color on the cover and inside pages of each issue of the international distributed African Violet magazine.

Mrs. V. Van Zele has accepted speaking engagements from coast to coast in the United States and Canada, her last being on April first in Birmingham, Alabama, at the Dixie African Violet Society's Annual Convention.

It's Time To Change Your Clock Again

Make your contribution to modern civilization Sunday.

You do it by getting up an hour earlier.

You get up an hour earlier by moving the hour hand of your clock forward one numeral Saturday night.

Before the invention of such new fangle things as clocks and the development of time zones, most people were satisfid to know it was daylight or dark. Some cared only if it were summer or winter—and nobody needed a Federal law to figure that out.

Sunday is the beginning of Daylight Savings Time and it will last until the last Sunday in October.

If you feel that you're giving your employer an hour of your preferred sleep time; just relax, you'll get it back next fall.

If it's any comfort, you should know that most of the states are observing Daylight Time this year for the first time.

It's because there's a new Federal law by which states are encouraged to join the time zone confusion.

Move the clock forward as you retire Saturday and you'll be in synchronization with the rest of the nation—and your church service program—Sunday morning.

Book Review

Life of Alou Is Thrilling

by Ben Sele

"My Life and Baseball," by Felipe Alou is a humanly thrilling story of a poor boy in the Dominican Republic who one day finds himself in America playing.

Although he is relegated to a Class D team, his determination to improve and his belief in God is credited with lifting him to the Majors.

The book covers the period from his early youth to the present and followsh him, step by step, to the pinnacle of success achieved by so few in the national pastime.

Through it all comes the picture of a man with a great zest for baseball and a strong belief in God.

Herm Wieskopf, a noted sportswriter, aided Alou in writing the book. It was published by World Books, Waco, Texas.

Reservation Demand Heavy For Del Mar Fair Space

Mrs. Majorie Thackeray would like a "building stretcher". The reason is quite simple: Mrs. Thackeray already has reservations for all but two spaces in Exhibit Hall for help tt prepare students for Fair, and the 12-day fair doesn't open its gates until June 23.

"I'm sure we'll have a number of additional requests for space before fairtime," she declared. "Just where we can put them will be anyone's guess."

Mrs. Thackeray, who is the fair's special events coordinator, also is responsible for all of the fair's non-comercial exhibit space.

Exhibit Hall, with 51,000 square feet of floor space, is her chief concern.

To date she has 61 reservations for display space. Of these 37 are feature exhibits from chambers of commerce, counties, fairs and agricultural organizations.

Another ten are from military groups—navy, marine corps, coast guard, the WAC, and civil air patrol; another seven are from the United Nations and foreign countries, and a final seven are from miscellaneous groups, among them the Lakota Indian Dancers, the California Egg Council, and the San Diego Historical Society.

Major exhibit in the Hall will be the fair's theme display, "Our Golden Heritage", a 60-foot-long exhibit presenting San Diego County's past and present in a series of six revolving scenes.

The World's First Furniture

The deveolpment of furniture can be traced from the Renaissance to modern times. Furniture has always expressed the aspect of the social life of the day. As early as 3400 B.C. we find people used supports for their chairs which we now call legs and chair spokes. Their chairs were carved with the cloven hoof o the lions paw.

For hundreds of years the furniture was made of hard straight lines, and even the King's throne chair had only a small thin pad to sit on. In fact, the world had to wait for over 5400 years before the real true comforts of furniture covered in the finest of fabrics, outlined with beautiful design, and made up by experts in workmanship was available at All American Upholstery in Lemon Grove, Calif., at very reasonable prices for all to enjoy. In fact, people wishing this complete and wonderful service no longer need to bring their furniture many miles to get as estimate of cost and find what is available in fabrics. Today, this is all possible by just picking up the phone and calling the number 463-8861 for free and fair estimates.

Dear Editor:

I wish to congratulate Mrs. Goode and Mr. Birch on their reelection to the Grossmont Union High School and Junior College School Board.

I also wish to thank my many friends for their hard work in support of good community schools — for, indeed I must access the strong vote for me—an unknown in this way.

A great deal of good can come out of this election, if the results are carefully analyzed and the correct conclusions reached and acted upon. I might add, my purpose for running will have been served if this occurs. First, it seems apparent that the communication gap between the schools and the grass roots citizenry, which I've been talking about, does exist. In spite of a block vote of over four-thousand teachers in the district, and in spite of my support, the two-million dollar high school bond issue failed. I believe there are two reasons for this: First, it is apparent that a great deal of difference of opinion exists between the schools and the community with respect to academic freedom. Communists and Nazis are **not** wanted on our college campus **and** if a 2/3 majority had been required, tax override would have failed. Secondly, people want to know how their money is to be spent.

During my candidacy, I advocated that a truly representative citizens committee be established who would be given each major issue prior to vote by the board. This committee would each call 5 or 6 people and have them call an equal number of people in various areas of the district. The issue woud be explained for community enlightment and each person would then solicit an opinion of each person contacted and pass the opinion back to the citizens committee for presentation to the board. This random sampling technique has served industry well and can serve education in our community equally as well.

Sincerely,
William J. Dawsey

I am an instructor at the California State Polytechnic College, San Luis Obispo, and will take the latter school as an example of how the budget cut can be affected without loss in efficiency of a state college. In fact, before I get through I

Are you one of the people that have tried to find the Pacific Telephone Business Office at the Grossmont Shopping Center and been unable to do so? With all the center's new additions, it sometimes is a wee bit difficult to find all of us.

Well look no longer. The Business Office is located on the east side of the center right next to the Bank of America Building and across the street from the Grossmont Medical Center. A drive-in window, for your convenience is located along the south side of the building, and of course, customer parking is always available directly in front of the office.

Have you ever wondered what you could do about "pushy" sales calls? Well, when one of these "over-eager-beavers" calls you at an inconvenient time; won't take "no" for an answer; or gives you a sales pitch that sounds deceptive or unbelievable...firmly refuse the offer and hang up.

Of course, most people who sell by phone do so courteously and considerately, offering honest values you may well be interested in. And we give any business which is interested free information about good telephone selling. We ask that they make sales calls only to bona fide prospects and that they identify themselves clearly and approach you honestly.

So, if you're ever bothered by a rude sales call refuse the caller your time and attention and just hang up. You don't have to listen to the message. And the caller will certainly get yours.

VISTA Sends Miss Steinhoff To Job in Bell Gardens

Laura L. Steinhoff, 20, daughter of Mr. and Mrs. Ralph Steinhoff, 2769 Mass., Lemon Grove, was one of 44 trainees who recently graduated from a VISTA training program at a National Training Center in San Diego.

As a Volunteer in Service to America, Miss Steinhoff will spend one year working with the Westminster Community Center in Bell Gardens.

A 1964 graduate of Helix High, Miss Steinhoff, was attending Grossmont Junior College immediately before she joined VISTA. Formerly active in the Y-Teens, she put in four months as a supervisor at Spring Valley Junior High School last year. One of her favorite leisure time activities is shooting. She holds the rank of distinguished expert in that field.

During the six-week training program, Volunteers complete classroom study and gain field experience by working near the training site on a project similar to the one to which they will be assigned.

VISTA, the volunteer corps of the Office of Economic Opportunity, sends workers to projects that request aid in poverty pockets within the United States and its territories. They serve for one year, although they may extend their term of service at the end of the year.

Miss Steinhoff will return to college when she completes her service with VISTA.

Sprinkled with local sports and tv personalities, "Never Too Late" opened Tuesday at Circle Arts Circle Theatre for a two-weeks run.

The play revolves around the pregnancy of a middle-aged wife, played by Irene Hervey. The fat, sixty-five-ish father-to-be is Andy Divine.

The couple's daughter and son-in-law live with them and the young people are "constantly" trying for pregnancy while Devine resists fatherhood.

The diference in bological attitudes make the play amusing.

Bob Mills, of tv, Jacque Mac Kinnon and Bob Beman of the Chargers, have parts.

Gigi Perreau and Tom Lowell play the young couple.

Postal Interest Ends This Week

The Postmaster is going to turn your interest off this week.

However, it'll only affect those holding U.S. Postal Savings Certificates.

Yet, there is $90 million worth of them out, the Postmaster said this week. Interest payments cease today, he said.

A year ago the Post Office Department discontinued accepting deposits.

On June 30, all remaining funds in the program will be turned over to the Treasury Department to be held in trust until liquidated. No time limit has been set for payment.

The Postmaster suggested that depositors convert to U.S. Savings Bonds to the new Freedom Shares which will pay 4.7% interest.

Postal Savings certificates can be redeemed at local Post Offices.

The Columbia River, which serves the 6.3 million people of the Pacific Northwest, has 10 times the water of the Colorado River, which serves the Pacific Southwest's 25.8 million inhabitants.

A familiar looking word like "rodeo" makes the learning of the related Spanish word easier. This word is spelled the same in both English and Spanish.

BoA Operates Mail Run With Seven Twin Aircraft

If you want speedier mail service, try Bank of America.

BoA operates one of the largest inter-office messenger systems ever devised.

It isn't for public use, though many government observers feel that stamps would be cheaper and the service better if BoA messenger service were made public and national.

The service is unique in that bank papers have to be delivered on time and they are. It is possible for the BoA executive in Spring Valley or Lemon Grove to tell his counterpart in Crescent City, for example, that he will have certain papers on the Crescent City desk by 8 a.m. the following day.

To make good this assurance, BoA operates seven twin-engine airplanes every banking day carrying more than five tons of bank cargo, such as checks, letters, and other papers to BoA branches throughout the state.

The bank has two runs south and three north with two east-west runs. About 300 ground messengers are involved in getting the cargo from airports to bank desks. Gibbs Flying Service of San Diego operates the service for BoA and their pilots fly 3,500 miles a day and have racked up six non-accident years.

First time winner Bill Bramley of Spring Valley fought off the hard charging attack of Vance Butler to come home on top at Cajon Speedway Saturday night. 3,112 fans saw action start in the third round as Bob Chambers caught fire, roared into the infield and jumped to safety. On the eight lap Cactus Henyan lost a wheel and slid 100 feet in a hale of sparks into the south crashwall.

On the next lap Jerry Griffin of Escondido spun three times into the infield tieing up traffic on the north turn. On the 12th circle Rudy Skuija hit a slick spot in the north turn spinning into the wall while Jim Hitt, Bucky Peralta and Jim Mc Cormack tangled. All got back into the race but McCormack and his 1959 thunderbird.

The racing action was red hot as Bramley started in the 12 spot and jumped to fifth by the fifth lap. Taking advantage of every break he was third by the 11th and pushed the leader Bill Shannon so hard his car gave out on the 20th when Brumley took over.

He had already fought a slam bank dual for third place with Vance Butler who had come up from last at the start. The dual continued for seven laps till the speedy red no. 3 pulled to a four car lead and held it to the flag.

Helix High's Highland Notes

by Shauna McGregor

"Spring has sprung and fling has flung." This bit of nonsense means nothing more than Helix's journalism team, or members of the "Fling" staff, have taken another sweepstakes award in county-wide competition held last Saturday at San Diego State. It proved to be really exciting and Helix had quite a cheering team.

Highland lads and lassies had a real fling (not the newspaper type) last Friday night at our annual Hawaiian dance. The theme this years was "Polynesian Paradise" and it proved to be every bit as exotic and exciting as the name implied.

Final class elections were held last week. Serving as senior class president next year will be: Greg Glason; vice-president, Bruce Kerns; secretary, Carolyn Shaw; treasurer, Teresa Custis.

Sophomores serving their class will be: president, Steve Wrightson; vice-president, Debbie Raymond; secretary, Barbara Hurst; treasurer, Cecelia Dye.

To The Outside World

by Kathy Powell

'Tis the final quarter of the 1966-1967 school year, and one certainly doesn't find the students complaining except, perhaps, at the restrictions they've been put on because of their third quarter report cards.

Last week was indeed a busy week for many of the Matadors. To start the week off right; Monday, freshmen, sophomores, and juniors held their election assemblies to give the various candidates a chance to inform the student body of their qualifications.

Tuesday, all the representatives to M.M.'s Leadership conference attended a picnic at Eucalyptus Park. (or rather at the Mount Miguel cafeteria because of the pouring rain.) The powers that be just refused to recognize the fact that heavy black clouds usually bring rain; however, the picnic was a success, and the food was delightful. Also at the picnic was six incoming freshmen from three of the district junior high schools: Lemon Grove junior high, Palm junior high and Spring Valley junior high. Their purpose is to carry back with them some of the ideas that the new freshmen will have to deal with. The Matadors were extremely glad to have them.

The climax to the entire week was on Wednesday at the Senior Banquet at Hilton Inn. Seniors, who honored banquet chairman Nona Luallin, with a rose corsage, were extremely pleased with the entire evening. Among the guests were Mrs. Venalee Field, senior counselor; Mrs. Genevieve Ruef, faculty advisor; and Mrs. Ellen Hall, everybody's favorite senior English teacher. The only bad result of the banquet was the enormous absence list on Thursday.

Future events to look forward to are Mount Miguel's fabulous Fiesta for 1967, May 12 and and almost complete revision of Miguel's constitution by Student Council—perhaps not so fabulous.

Four LG Drivers Enter School Bus Rodeo

The Lemon Grove School District will enter four school bus drivers in the third annual School Bus Rodeo on Saturday, April 29. Beginning at 9 a.m. at Bonita Vista High School in Chula Vista, the activites will continue until approximately 2:30 p.m.

Backed up with the district's new 73-passenger bus, Junis Cregar, Velma Bell, Ray Wilhelmi, and Art Taylor will compete for trophies and cash prizes in a series of tests including a written exam, uniform check, and tests on actual operation of vehicles under conditions simulating daily activities. These include parking, loading and unloading studets, stops required by law, etc.

The top point winner will become eligible to enter the statewide contest to be held later in the spring.

Lemon Grove classified personnel who will be engaged in the Rodeo's coordinating activities include George Dickinson, Jerry Heath, Al Hiner, and Nelson Burgio.

All districts from San Diego and Imperial Counties have been invited to participate. This could involve 800 drivers, but the sponsoring committee from the Department of Education in San Diego does not anticipate that all districts or drivers will enter.

The contest is staged each year to improve driver skill, to make drivers more safety conscious, and to honor this part of the school team that assumes such great responsibilities. It is endorsed by the California Highway Patrol. Visitors are welcome, and concession stands will provide refreshments.

GIRL SCOUT CHATTER

by Mary D. Giacinto

Trefoils were awarded recently to the following adults for special service in the Lemon Grove neighborhood: Mrs. J. B. Leamons for the successful completion of the neighborhood fund raising project, Mrs. R. N. Graves for so competently handling the annual cookie sales, Mrs. J. Hall for being co-ordinator of the Girl Scout trip to Disneyland, and Mrs. Pearson for managing the window displays for Girl Scout Week.

Congratulations scout leaders for putting Lemon Grove favorably in the limelight.

Jr. troops 1022 of Monterey Heights School under Mrs. Kinsbury and Brownie troop 806 led by Mrs. Wiltare enjoyed a joint meeting at which the girls displayed their collection of rocks, dolls and stamps. Troop 1022 has planned a camp out in the back yard of their assistant leader, Mrs. Coker for this month.

Brownie Troop 1255 of San Altos School will be taken on a tour of the San Diego Coca Cola Plant on April 26.

Girl Scouts and their leaders are quite pleased to note that there will be a Day Camp in Lemon Grove this year at Washington st. It will be held from August 8-18. It promises to be a most delightful experience for all participants.

Heart Association Hosts 'Frank's Risky Frolics'

The 17th annual meeting of the San Diego County Heart Association in the Hanalei May 2 is billed as "Frank's Risky Frolics."

President Frank Alessio will emcee the program which will eliminate speeches, feature entertainment and spoof the Heart Association and its members.

Alessio said the business session will be streamlined and "we'll present awards to top volunteers. But mostly, we plan to give them a good time in exchange for all the serious time they've devoted to the Heart Association."

MEXICAN BATMAN? Mr. Jack Sherf, Spanish teacher at Monte Vista High School is dressed for his skit "Mexican Batman", part of the second annual Faculty Follies at Monte Vista tomorrow night. The "Follies" include a singing trio, the Mexican Batman and a take-off on Romeo and Juliet. Over 30 teachers, coaches and counselors will perform. Section 1. Ordinance No. 2 is hereby amended by adding thereto Article IV-C and Article IV-D to read as follows:

ARTICLE IV-C.

(d) Hotels, motels, auto courts —per living unit without kitchen	4.00
—per living unit with kitchen	6.00
(e) Churches —per each unit of seating capacity (a unit being 150 persons or any fraction thereof)	16.00

—not conducting on-sale liquor sales	32.00
(g) Automobile service stations —not more than 4 gasoline pumps	24.00
—more than 4 gasoline pumps	36.00
—for each washing rack or pit or floor drain an additional	24.00
(h) Self-service laundries —per each automatic washer	6.00
(i) Trailer court —per trailer space	6.00
(j) For each store, office, business or small industrial establishment not listed above	12.00

Provided, however, in the case of laundries (other than self-service laundries), bottling works, industrial establishments, and other businesses and establishments that have unusual characteristics insofar as sewage is concerned, the rate shall be established in each case by the Engineer subject to approval by the Board of Directors of the District. The rates so established shall be fixed in consideration of the estimated volume and type of sewage from such business as compared to the volume and type of sewage discharged from those businesses for which a fee is specified above.

(k) Schools — The rate shall be $0.50 per pupil per year for each elementary school and $0.65 per pupil per year for each junior high school or high school. The number of pupils shall be based on the average daily attendance of pupils at the school during the preceding fiscal year computed in accordance with the Education Code of the State of California; provided, however, where the school has had no attendance during the preceding fiscal year, the Engineer shall estimate the average daily attendance for the fiscal year for which the fee is to be paid and compute the fee based on such estimate.

SECTION 38.1. PAYMENT OF SEWER SERVICE CHARGE. When application is made to connect a premise to the sewer system of the District, there shall become owing, due and payable in advance the sewer service charges for the remainder of the fiscal year in which said application is made, such sewer service charge to be computed by prorating the annual charges from the first day of the second calendar month next following the date of such application; provided, however, that where such application is made after the last day of February and prior to the first day of July of any year, there shall become owing, due and payable at the same time in advance the sewer service charges for the next succeeding fiscal year. Sewer service charges which become owing, due and payable at the time such application is made for permission to connect to the sewer system of the District shall be paid to the District prior to the issuance of any permit authorizing the connection of such premise to the District's sewer system. Thereafter, the sewer service charges for such premise shall become owing, due and payable annually in advance on the first day of July. Such sewer service charges shall be payable to the District and become delinquent on the first day of September following the day on which they become due unless such sewer service charges are to be collected with the taxes of the District as authorized by Section 39, of this ordinance.

SECTION 38.2. CHANGE IN USE RESULTING IN INCREASED RATE. Whenever the use of any premise is changed so that there is an increased sewer service charge rate applicable to such premise, there shall become owing, due and payable the prorated amount of the increased rate applicable to the premise for the remainder of the fiscal year in which the change is made. The charge imposed by this section shall become delinquent sixty (60) days following the date it becomes due.

ARTICLE IV-D

FEES AND CHARGES MAY BE COLLECTED WITH TAXES

SECTION 39. will show how much more than 20% of the budget cut could be absorbed by Cal State L.A. without loss in efficiency.

As a beginning, the state colleges, could cut down on their administrative staff. For example, at Cal Poly, out of a total of 900 employee only 400 are actually engaged in instruction!

I imagine the same situation, only worse, holds at Cal State L.A. In the Cal Poly catalog, under administration are listed, in addition to other necessary ones, 13 positions, each of which draws from $15,000 to $20,000, and each of which employs, besides, a group of secretaries and assistants, and which positions are not essential to the education of the students. By eliminating these jobs, a considerable saving would result.

Secondly, an increase in enrollment of 10% or a budget cut of 10% could be absorbed by the state colleges, if each instructor would take an extra class for two out of five semesters.

If the authorities at Cal State L.A. are loath to follow the preceding suggestions, I have a much more powerful one. Since at Cal Poly, and this is very likely true also of Cal State L.A. only 15% of the entering students graduate at the end of four years and an additional 15% at the end of five years, 70% of the entering students drop out before they finish.

The country-wide average is 50%. This means that half of the entering students drop out before they finish. This is largely due to inability of a student to make the grade in the state colleges, and, if we could prevent these students from entering in the first place, we could cut the budget by 50%! This can be done by raising the admission standards, or imposing stiff entrance examinations.

I have another suggestion to the state colleges on recruitment of faculty. If there should be an exodus of faculty due to the budget cut, let us take bright, young graduate students and put them into teaching positions. Most of the courses at the state colleges are only very little above that of the junior colleges anyway and do not require men with advanced degrees to do the teaching.
